FIRE PROTECTION SERVICES

FIRE PROTECTION SERVICES

Elite Fire Protection Systems provides all types of Fire Protection and Fire Detection Systems, as well as state-of-the-art and Integrated Solutions to a wide range of market sectors such as Oil & Gas, Commercial, Telecommunication, Industrial and Power & Water.

Our portfolio of solutions include:

- ✓ All Types of Fire Extinguishers:
 - CO2, Dry Chemical Powder, Foam, Water, Wet
- ✓ Chemical and Halotron
- ✓ Dry and Wet Standpipe Systems
- ✓ Fire Hydrants (all types)
- ✓ Sprinkler System
- ✓ Deluge System
- ✓ Water Mist System
- ✓ FM 200 Suppression System
- ✓ Foam System
- ✓ Carbon Dioxide System
- ✓ Gas Detection System
- ✓ Wet Chemical Suppression System
- ✓ Fire Alarm System (Addressable / Conventional)
- ✓ Fire Fighting Pumps (UL Listed / Non UL Listed)
- ✓ End Suction Centrifugal Pump
- ✓ Horizontal Split Case Pump
- ✓ Vertical Turbine Pump
- ✓ Vertical Multistage Centrifugal Jockey Pump
- ✓ Regenerative Turbine Jockey Pump
- ✓ Industrial Safety
- ✓ Emergency Lighting System

We undertake the following services which are combined as a package deal:

- (a) Hazard Analysis and System Design as per NFPA and/ or your specific requirement
- (b) Computer generated hydraulic calculations
- (c) Engineering work and submittal preparation
- (d) Installation of the systems we supply
- (e) Testing and commissioning of the systems we install

The diverse range of solutions and services in our portfolio enable us to keep up with the ever-changing demands of the various markets we serve.

Our product suppliers maintain research and development programs at major research centers around the world to ensure Elite Fire Protection Systems stays at the forefront of technological advancements.

FIRE EXTINGUISHERS

- ✓ Carbon dioxide extinguishers (portable & mobile type)
- ✓ Dry chemical powder extinguishers (portable & mobile type)
- ✓ Foam extinguishers (AFFF) portable & mobile type
- ✓ Water extinguishers (portable & mobile type)
- ✓ Halotron fire extinguishers (portable & mobile type)

CONVENTIONAL FIRE ALARM & DETECTION SYSTEMS

With our fully trained and experienced workforce, we have the capabilities to fulfill the complete system design and installation needs of our region for all sizes of fire alarm systems. Elite Fire Protection Systems provides professional fire alarm and detection services, inspections, and repairs to many major product lines. Our fire alarm and detection professionals would be pleased to provide a complete certification and testing program for any of your facilities. With a focus that is mainly customer based, supplying inspections, monitoring, and service, we also provide complete fire alarm systems installation while working with exceptional brand names within the industry.

SERVICES & PRODUCT LINES

Our Services and Product Lines include:

- ✓ Fire alarm systems inspection
- ✓ Fire alarm systems service
- ✓ Fire alarm systems installation
- ✓ Monitoring
- ✓ Wireless monitoring
- ✓ Alarm activation
- ✓ Fire pump signals
- ✓ Sprinkler systems
- ✓ Suppression and special hazard systems
- ✓ Suppression system discharge
- ✓ Tamper, supervisory/trouble
- ✓ Other alarm options

Elite Fire Protection Systems provides free, no obligation quotes for general contractors, facility managers, architects, project managers, and other companies and institutions. Within 48 hours of a request for quote submission, a dedicated team member will reach out to discuss your project. We will gather all the information we need to generate pricing and can schedule site visits if needed.

ADDRESSABLE FIRE ALARM SYSTEM

Addressable analogue 1 to 2, 1 to 4, 1 to 6, loop control panels.
200 devices each loop with built-in battery charge and battery backup power supply.

The S-Quad combines a sounder and strobe within a sensor which not only reduces the number of individual devices you have to install, but also provides an even cover of sound and light throughout a building.

An addressable call point with a response time less than 1 second versions available include:

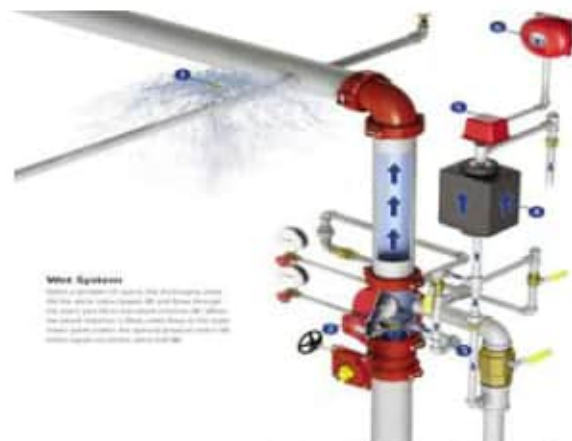

- Resettable or break glass
- Lift up covers
- Key switch
- IP55 rated - when fitted with cover and surface box

FIRE SPRINKLER SYSTEMS

Automatic sprinkler protection has been widely used in a variety of locations. Every Sprinkler installation is tailor-made to suit various factors such as features of building construction, dimensions of the compartment, fire load of the occupancy, the possible type of fire etc. Designing the sprinkler installation, therefore calls for a thorough understanding of these factors. An installation which has not been properly designed cannot be expected to function in the desired manner.

Design as per NFPA 13, hydraulic calculations, AutoCAD drawing, installation of water sprinkler system up right & pendent, alarm check valves, deluge system, medium & high velocity spray system, cooling system for oil and chemical tanks, connectivity of sprinkler system to other alarm devices, dry and wet piping network.

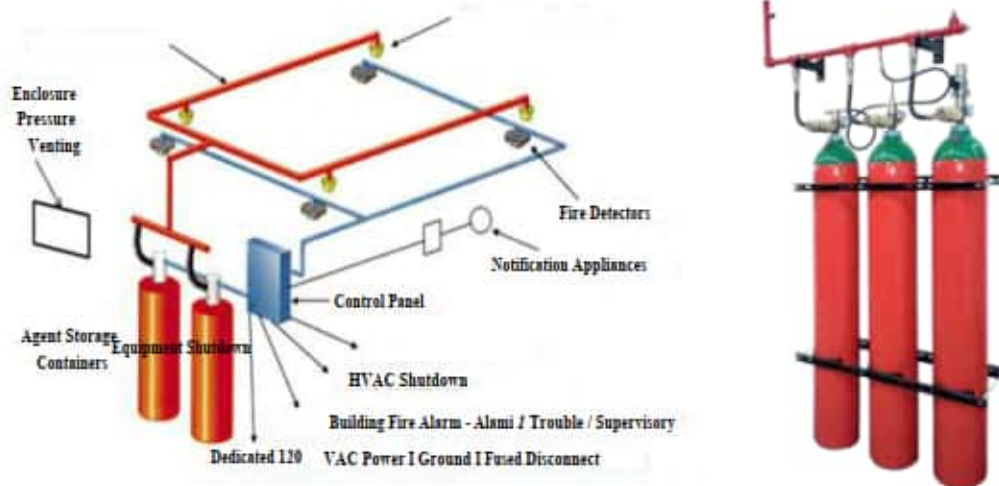

FIRE HOSE, REEL, CABINETS & ACCESSORIES

FM 200 SUPPRESSION SYSTEM

Our equipment is the frontline defense against fires in diverse products such as consumer electronics, computers, textiles, furnitures and auto parts. Case after case, studies show that fire suppression systems save lives.

CO2 SUPPRESSION SYSTEM

Design, agent calculations for hazard area, installation of high pressure piping network threaded & welded, fixing of equipment, commissioning, testing & training, after sales services with wide variety of hazards to fit your industrial & commercial fire protection needs.
(We also refill CO2 gas.)

Ideal Applications:

- Flammable Liquid Storage Areas
- Quench Tanks
- Printing Processes
- Mixing Operations
- Spray Booths
- Turbine Driven Generators
- Electrical Areas
- Dust Collectors
- Engine Rooms

KITCHEN HOOD FIRE SUPPRESSION SYSTEM

As Kitchen is one of the vulnerable space for a disastrous fire hazards, our ELITE team engineers the most appropriate fire suppression system for commercial kitchen and the similar.

The Kitchen Hood Fire Suppression System employs wet chemicals according to industry fire standards. By deploying comparatively fewer nozzles for the same area of coverage, the system is very efficient and cost-effective. Depending on the location of the hazard, nozzle location can be adjusted to be closer to the appliance surface. It can even be placed outside the appliance perimeter.

FIRE FIGHTING PUMPS

Our standard fire pumps comply Qatar Civil Defense Departments requirements, International standards NFPA 20, LPC and also for customized built in packages.

We supply as per calculated water requirement, fixing and installation, coupling of pumps with drive units, repairing maintenance of pumps, prime movers, rewinding of electric motors, controllers, manual and automation, commissioning testing and training, providing of operators.

Our standard fire pump set packages are well assembled, supplied and used for fighting applications in various areas including Government buildings, Warehouses, High rise buildings, Factories, Residential buildings, etc.

FOAM SYSTEMS

Design, installation of all type of low, medium and high expansion foam systems with UPVC, PE, OS, ERW piping network, all kinds of welding and fabrications, testing, commissioning, maintenance, service contracts, providing expert fire fighters, service contracts, training, etc.

Foam equipment comprises of a comprehensive range of foam proportioning and discharge devices used for the protection of the following sites:

- Fuel/Chemical Storage tanks and bunds
- Refineries & petrochemical installations
- Airports & Helicopter Landing Areas
- Chemical Process Plants
- Loading Racks
- Offshore Oil Rigs
- Jetty Protection
- Spill Fire Protection

LANDING / HYDRANTS / POST INDICATORS

Designed as per AWWA C502, installation of wet & dry fire hydrant systems with UPVC, PE, CS, ERW piping network. All kinds of welding & fabrications, testing, commissioning, maintenance, service contracts, providing expert fire fighters, & training.

A range of 65mm nominal diameter fire hydrant valves are available for both on and off shore use, constructed generally in accordance with BS 504 I standards.

The valves are available in three configurations with both Flanged and Screwed inlets such as:

- Horizontal
- Right Angled
- Oblique

MAINTENANCE SERVICES

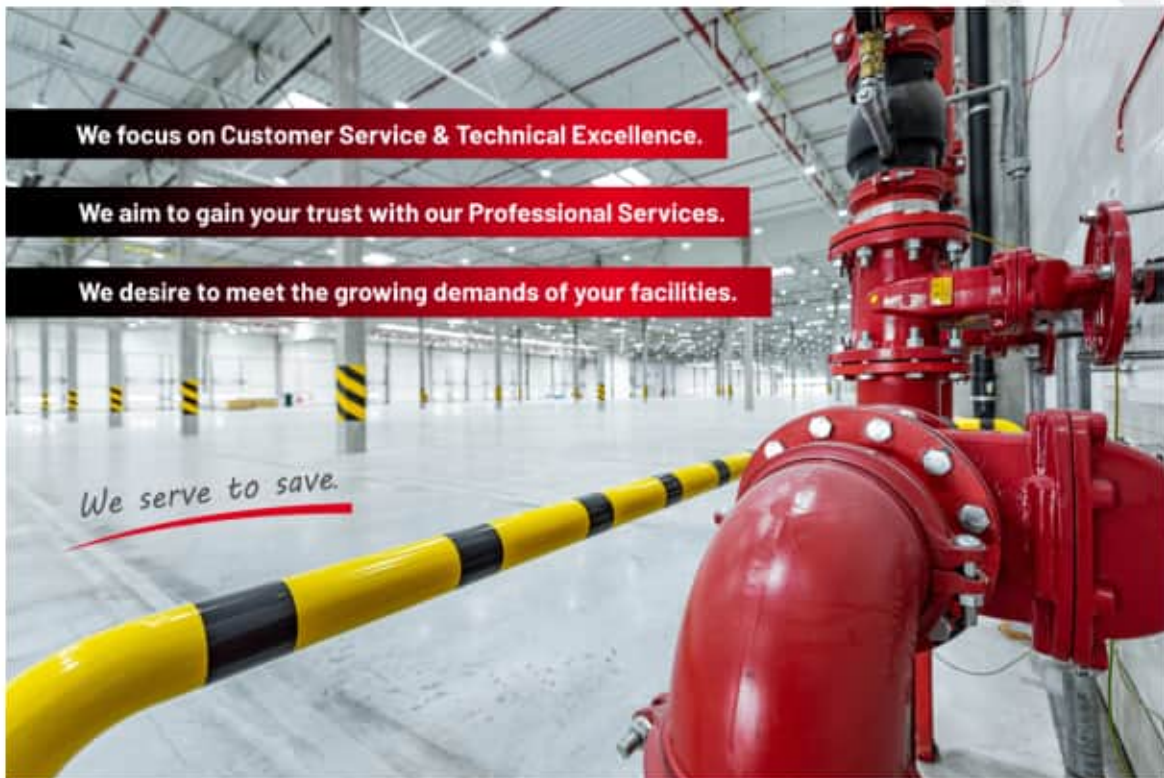

MAINTENANCE SERVICES

Dedicated teams of Service Engineers support ELITE customer-base to offer Electrical, Air Conditioning, Ventilation Duct Cleaning, Plumbing preventative & reactive maintenance, and fire protection systems throughout all market sectors.

Service teams provide routine planned maintenance and urgent repairs. We also specialize in providing team of Engineers who are able to carry out modifications, upgrading or extensions to existing systems at short notice.

Formal maintenance contracts are tailored to meet individual needs and authority requirements that may range from an annual service visit to permanently-manned sites.

We also offer Maintenance and Support Services to the Oil & Gas, Power & Water, Industrial and Infrastructure market sectors.

Subject: Inclusion of Messrs. Elite Fire Protection System W.L.L. as an Approved Local Agent for Messrs. Gent By Honeywell (UK) for the Supply of Fire Detection & Alarm System Manufactured in UK to Be Used in ASHGHAL Projects

Dear Sir,

The Vendors Prequalification Committee (VPC) refers to the application submitted with PWA Reference 2021/0020680/1, and your request to include Messrs. Elite Fire Protection System W.L.L. in the approved vendor list as a supplier for Fire Detection & Alarm System manufactured by Messrs. Gent By Honeywell (UK) in their factory located in UK).

Following our general evaluation process, the committee decided to approve the inclusion of Messrs. Elite Fire Protection System W.L.L as a local agent for Messrs. Gent By Honeywell (UK) under the category Fire Detection & Alarm System in ASHGHAL's Approved Vendors List.

Accordingly, we will update the approved vendors list posted on our website (<http://www.ashghal.gov.qa/en/Services/Pages/ApprovedMaterialHome.aspx>) to reflect on this approval.

Kindly note that it is the responsibility of the local agent to make sure that the provided information on our Approved Vendors List is accurate, and that that all contact information is always up to date.

Lastly, This approval shall not be interpreted as a guarantee for providing materials or services for any ASHGHAL projects and the Authority shall not be held responsible nor accept any liability for Manufacturer / Supplier / Subcontractor losses, expenses, damages to reputation or any other damages whatsoever arising out of or in relation to taking part in the authority prequalification procedure.

Recommendation Letter
for Elite Fire Protection Systems

September 9 , 2018

To Whom It May Concern,

Elite Fire Protection Systems was recently contracted last year 2017 by **ABDUL QUIRASHI PERFUMES** for the Annual Preventive Maintenance of Fire Alarm and Fire Fighting Systems for all the shops located in Qatar.

The specifications on this project were intricate and extremely detailed wherein all Perfume Shops are having different System panel, considering the Brand (Examples: Zener, Gst, Simplex, VES, and Apollo etc. And Type of panel (Conventional / Addressable) . In that regard, Elite Fire Protection Systems handled the job of maintenance & rectifying all troubles with the upmost professionalism and courtesy.

All the team staffs were capable of handling all the systems brand and well trained when it comes to trouble shooting.

24 hours Emergency Hotline was also excellent, response time was great for urgent issues.

I can confidently recommend **Elite Fire Protection Systems** as a solid and reliable contractor demonstrating excellence in their field.

Please feel free to contact me as a reference as it would be my pleasure to provide the highest recommendation,

Very truly yours,
